| Mouth Width               | 1.69"                                                                                           |
| Shackle Size              | 1"                                                                                              |
| Pin Size                  | 1-1/8"                                                                                          |
| Material                  | Alloy Steel                                                                                     |
| Finish                    | Galvanized                                                                                      |
| Type                      | Bolt Type Anchor                                                                                |
| Product Weight            | 6.13 lbs.                                                                                       |
| Standards                 | Meets or exceeds all requirements of ASME B30.26, Federal Specification RR-C-271, & ASTM A148M. |
| Manufacturer Name         | Van Beest                                                                                       |
| Brand Part Number         | SUGHMB25                                                                                        |
| Additional Info           | WLL (tons): 12.5                                                                                |

**SAFETY INFORMATION**

- Never exceed the Working Load Limit (WLL). The WLL is the maximum load the product is rated to handle in service.
- Inspect before every use. Remove from service if cut, worn, abraded, stretched, cracked, bent, corroded, heat-damaged or missing its identification tag or marking.
- Protect webbing, rope and chain from sharp edges and corners with edge protection.
- Lifting and rigging must follow the applicable ASME B30 standards, OSHA regulations and a qualified person's lift plan.
